Palatine Park District Illinois

For its Annual Comprehensive Financial Report For the Fiscal Year Ended

December 31, 2023

Christopher P. Morrill

Executive Director/CEO

May 16, 2025

Board of Commissioners Palatine Park District Palatine, Illinois

Honorable Commissioners:

State law requires that all general-purpose governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of the Palatine Park District (District) for the year ended December 31, 2024.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Sikich CPA LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended December 31, 2024, are free of material misstatement. The independent audit involved examining on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended December 31, 2024, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Profile of the Palatine Park District

The Palatine Park District is located approximately 30 miles northwest of Chicago, in northern Cook County. The District serves most of Palatine and maintains over 425 acres (and leases nearly 300 more) of property for the resident's enjoyment. The District provides recreational services and opportunities primarily to the residents of Palatine along with small portions of Hoffman Estates, Schaumburg, Arlington Heights, Inverness, and Rolling Meadows. These services include recreational programs, parks management, recreation facility management, capital improvement development, and general administration. The District was established as a separate municipal body by the citizens of Palatine in 1945 and under a board-director form of government. The Board consists of five individuals who are elected at large to serve six-year staggered terms. In eighty years of service, it has grown in programs, facilities, and recreation importance in the lives of District residents. The current population served is just over 83,000 which includes residents in multiple communities within its borders.

The accompanying financial statements include only those funds of the District, as there are no other organizations for which it has financial accountability. The District participates in the Illinois Municipal Retirement Fund (IMRF), the Northwest Suburban Special Recreation Association (NWSRA), and the Park District Risk Management Agency (PDRMA). Since these organizations are separately governed organizations, and the District does not exercise financial accountability over these agencies, their financial statements are not included in this report. Audited financial statements for these organizations are available upon request from their business offices.

The Board of Commissioners has the authority, after the first six months of the fiscal year and with a two-thirds approval vote, to make transfers between the various items in any fund in the appropriation ordinance. Transfers cannot exceed 10%, in the aggregate, of the total amount appropriated for the fund or item that has funds reallocated. The Board of Commissioners may amend the Budget and Appropriation Ordinance, but this must be done in accordance with the same procedure followed in the originally adopted ordinance.

The Palatine Park District continues to be one of the premier parks and recreation providers in Illinois. The District has designed program offerings to target national and regional trends that have resulted in exceptional recreation opportunities while maintaining low tax increases and modest increases in user fee revenues.

Local Economy

There are many factors that influence the economy of a specific community, and various measures are used to gauge the economic outlook. Palatine's unemployment rate at the end of 2024 was 4.5% which is 1/2% lower than the state average. In addition, the 2023 EAV increased by 21.8% or \$590,846,615. The community is primarily considered a residential community; there is a significant commercial base and a large retail sector. The equalized assessed value of the property in the Park District is split 85% residential and 12% commercial, and 3% industrial. Based on available information, staff anticipate real estate tax collections to remain stable.

Palatine will continue to participate in the strong economic growth of the area through its emergence as an ideal place to live and raise a family. One of Palatine's strongest qualities is the residential character of the Village. With an excellent range of housing, increasing property values, access to transportation, outstanding schools and parks, a power shopping corridor on Dundee Road, and economical municipal services, Palatine will continue to attract residents, employers, and customers.

Long-Term Financial Planning

The 9th year of the District's Comprehensive Master Plan was executed in 2024. As the plan is nearing the final year of implementation, the District has begun the process of creating a new plan. These plans allow the District to be far more strategically focused. Staff review and assess the goals and objectives at the individual, department, and agency levels, to assure that the path to meeting the ten-year plan is maintained.

Additionally, the District diligently monitors their 10-year Capital Repair and Replacement plan to help it manage resources during the annual budget preparation process. This allows for the assessment of the timeline and the availability of funds for the projects listed in both plans.

The primary focus of the District board and staff is to operate efficiently and effectively while providing the greatest value for its residents. For this reason, staff is constantly evaluating its program offerings while senior leadership, in cooperation with the Board, carefully discusses any large capital undertaking. Ongoing initiatives were developed, which along with the short-term initiatives, formed the basis for the 2024 annual budget. Mid and long-term goals will continue to be integrated into future budgets. To fund future activities and capital initiatives, the District has accumulated adequate reserves and all indications are that reserves will continue to grow in the future. In addition to the use of unrestricted reserves, each year the District has access to unreserved debt capacity; therefore, the District may issue new debt as needed to fund its multi-year capital improvement plan. Due to its healthy local economy and maintaining healthy reserves, the Palatine Park District has maintained a credit rating of Aa1 from Moody's Investor Service.

The Palatine Park District continues its efforts to monitor economic and population changes and alters programs and services to meet the needs of the community. Gradually, the District is analyzing its parks and facilities, making changes to accommodate changing and existing needs. The District's financial condition is healthy, because of the General Fund and the Recreation Fund, fund balances. Based on the District's long-term financial plans, the District expects to remain in good financial shape.

Major Initiatives

The Palatine Park District continues to move forward with strategic capital projects to offer our patrons access to enjoy exceptional recreation experiences. In 2024, the District's major capital projects included:

- Replacement of Celtic Park's Synthetic Turf
- Cedar Playground Replacement
- Northwest Highway Digital Sign Replacement
- Meadowlark Park Development with \$499,900 OSLAD grant

In addition to capital projects, the District began the process of updating the Comprehensive Master Plan in 2024. When completed in 2025, the plan will provide a roadmap for the District for the next 5-10 years. This roadmap will guide initiatives and capital projects that is provided by community feedback.

A reorganization of the District was completed in 2024. The changes included moving the Facilities Department under the Recreation Department, the Customer Service Division under the Facilities Department, and the Palatine Hills Golf Course under the Parks Department. These strategic changes helped the District better align similar functions and resulted in the elimination of a department head position and the addition of two coordinator positions. As part of the reorganization, the District also conducted a comprehensive salary survey to adjust salary ranges appropriately.

Finally, the District transitioned from the Metropolitan Risk Management Agency to the Park District Risk Management Agency. This change resulted in significant cost savings and improved risk management solutions.

Awards and Acknowledgments

The District plays an active role in the community. The staff represents the District and often takes on leadership roles in Rotary, Kiwanis, the Chamber of Commerce, and other local community groups.

The Board of Commissioners remains committed to supporting membership and is involved in key organizations such as NRPA, IPRA, IGFOA, and GFOA. The leadership is active in giving back to the industry and often serve as speakers at the Leadership Academy and Professional Development School.

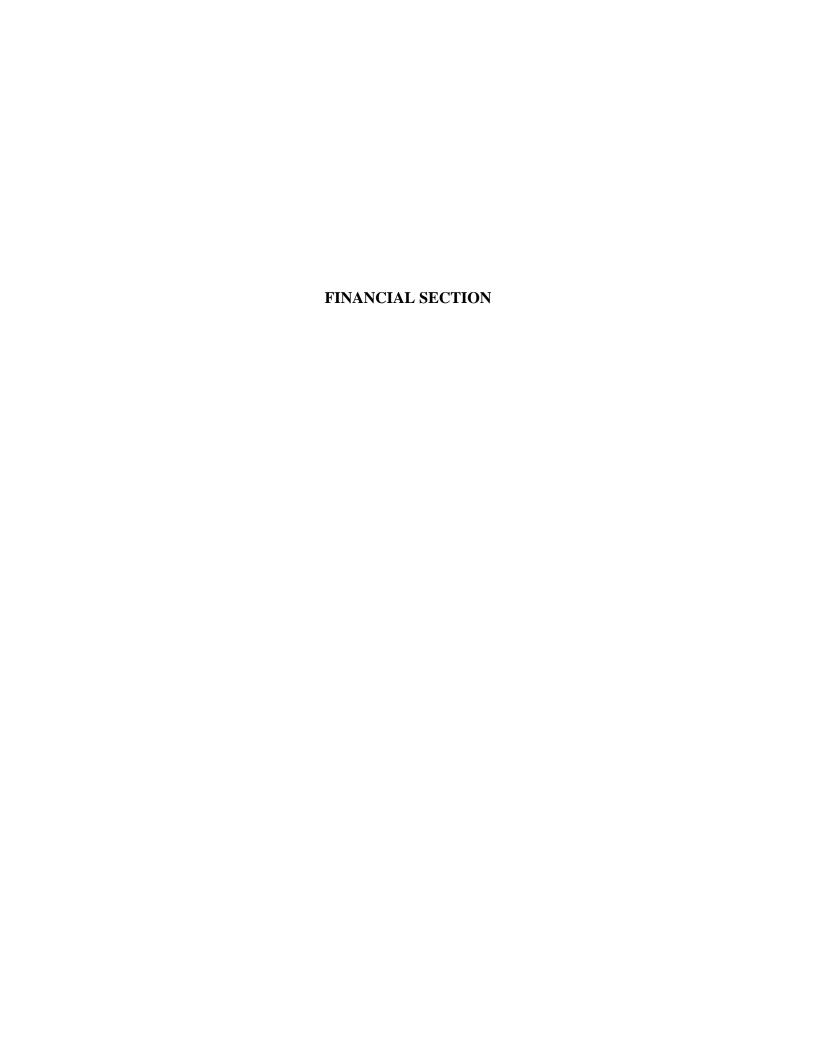

The Government Finance Officers Association of the United States and Canada (GFOA) has created a program that recognizes deserving Agencies when they prepare quality financial statements. Since 2015, the District has received the Excellence in Financial Reporting award for its Annual Comprehensive Financial Report. Each year the District will make every effort to continue to achieve this lofty goal. With this year's submission, staff is confident that it will achieve this distinction.

This financial report was compiled through the greatly appreciated extreme efforts and diligence of the entire staff of the Finance Department, and the cooperation and assistance rendered by other departments. We also wish to express our appreciation to the Board of Commissioners for their leadership, interest, and support in the financial operations of the Palatine Park District.

Respectfully submitted,

Andrea V. Fisher
Director of Finance

Andrea V. Lisher

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Commissioners Palatine Park District Palatine, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Palatine Park District, Palatine, Illinois (the District), as of and for the year ended December 31, 2024 and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Palatine Park District, Palatine, Illinois, as of December 31, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the District's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Sikich CPA LLC

Naperville, Illinois May 16, 2025

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

Management's Discussion and Analysis December 31, 2024

Our discussion and analysis of the Palatine Park District's (the District) financial performance provides an overview of the District's financial activities for the fiscal year ending December 31, 2024. Please read it in conjunction with the District's transmittal letter which can be found in the introductory section of this report and the financial statements which can be found in the basic financial statements section of this report.

FINANCIAL HIGHLIGHTS

- The District's net position increased by \$6,480,379 or 8.3 percent, as a result of this year's operations.
- During the year, government-wide revenues totaled \$29,932,393, while expenses totaled \$23,452,014 resulting in an increase to net position of \$6,480,379.
- The District's net position totaled \$84,787,969 on December 31, 2024, which includes \$58,522,841 net investment in capital assets, \$7,415,482 subject to external restrictions, and \$18,849,646 unrestricted net position that may be used to meet the ongoing obligations to citizens and creditors.
- The Recreation Fund reported an increase this year of \$1,696,736 or 35 percent, resulting in an ending fund balance of \$6,548,138.
- The District retired \$2,084,195 in outstanding long-term debt during the year and did not issue new debt.
- Beginning net position/fund balances were restated for the Bond and Interest Fund as it was reclassified from a Major Fund to Non-major Fund, in accordance with GASB Statement No. 100, Accounting Changes and Error Corrections.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the District's finances, in a matter similar to a private-sector business.

Management's Discussion and Analysis (Continued) December 31, 2024

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the District's property tax base and the condition of the District's parks and recreation facilities, is needed to assess the overall health of the District.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this

USING THIS ANNUAL REPORT - Continued

Government-Wide Financial Statements - Continued

statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and charges for services. The governmental activities of the District include general government and culture and recreation.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are considered governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

Management's Discussion and Analysis (Continued) December 31, 2024

The District maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General, Recreation, and Capital Projects, which are all considered major funds, and Special Recreation Fund and Bond and Interest Funds, which are considered nonmajor funds.

USING THIS ANNUAL REPORT – Continued

Governmental Funds - Continued

The District adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's I.M.R.F. employee pension obligations as well as budgetary comparison schedules for the General Fund and Recreation Fund.

Management's Discussion and Analysis (Continued) December 31, 2024

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the District, assets/deferred outflows exceeded liabilities/deferred outflows by \$84,787,969.

	Net Position						
	2024	2023					
Current and Other Assets	\$ 49,481,124	48,630,614					
Capital Assets	71,661,298	69,452,862					
Total Assets	121,142,422	118,083,476					
Deferred Outflows	3,594,197	4,850,896					
Total Assets/ Deferred Outflows	 124,736,619	122,934,372					
Long-Term Liabilities	16,223,023	18,113,825					
Other Liabilities	3,215,130	6,563,773					
Total Liabilities	19,438,153	24,677,598					
Deferred Inflows	20,510,497	19,949,184					
Total Liabilities/ Deferred	 39,948,650	44,626,782					
Net Position							
Net Investment in Capital Assets	58,522,841	55,006,783					
Restricted	7,415,482	3,366,900					
Unrestricted	18,849,646	19,933,907					
Total Net Position	84,787,969	78,307,590					

A large portion of the District's net position, \$58,522,841 or 69 percent reflects its net investment in capital assets (for example, land, construction in progress, land improvements, buildings and improvements, furniture and fixtures, and equipment and vehicles), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$7,415,482, or 8.7 percent, of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining 22.2 percent, or \$18,849,646, represents unrestricted net position and may be used to meet the District's ongoing obligations to citizens and creditors.

Management's Discussion and Analysis (Continued) December 31, 2024

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Changes in Net Position						
	2024	2023				
\$	9,527,033	8,663,575				
	-	5,501				
	445,632	11,00				
	17,549,628	16,937,407				
	235,412	449,403				
	2,174,688	2,024,940				
	29,932,393	28,091,826				
	9,347,428	12,467,764				
	13,548,752	13,372,391				
	555,834	548,140				
	23,452,014	26,388,295				
	6,480,379	1,703,531				
	78,307,590	76,604,059				
	84,787,969	78,307,590				
	\$	\$ 9,527,033 445,632 17,549,628 235,412 2,174,688 29,932,393 9,347,428 13,548,752 555,834 23,452,014 6,480,379 78,307,590				

Net position of the District's governmental activities increased by 8.3 percent (\$78,307,590 in 2023 compared to \$84,787,969 in 2024). Unrestricted net position, the portion of net position that can be used to finance day-to-day operations without constraints, totaled \$18,849,646 on December 31, 2024, and decreased from the prior year.

Management's Discussion and Analysis (Continued) December 31, 2024

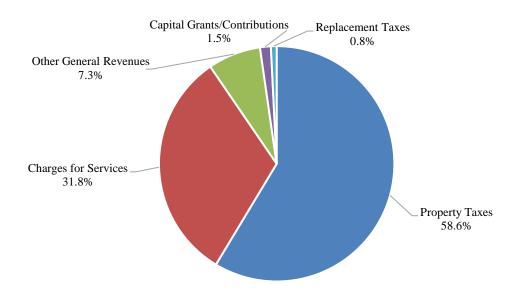

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Governmental Activities

Revenues for governmental activities totaled \$29,932,393, while the cost of all governmental functions totaled \$23,452,014. This results in an increase of \$6,480,379. In 2023, revenues of \$28,091,826 exceeded expenses of \$26,388,295, resulting in an increase of \$1,703,531. On the revenue side, the major contributor to the increase in net position was charges for services which increased by \$863,458, followed by property taxes which increased by \$612,221 in 2024 compared to 2023.

The following table graphically depicts the major revenue sources of the District. It depicts very clearly the reliance on property taxes and charges for services to fund governmental activities. It also clearly identifies the less significant percentage the District receives from replacement taxes, interest, and miscellaneous income.

Revenues by Source - Governmental Activities

Expenses for governmental activities totaled \$23,452,014, which is a decrease of \$2,936,281 when compared to 2023. This decrease is mainly attributable to the cost of the dissolution of the District's risk management agency in 2023.

Management's Discussion and Analysis (Continued) December 31, 2024

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The District's governmental funds reported combining ending fund balances of \$25,578,907, which is an increase of \$1,820,964, or 7.7 percent, from last year's restated total of \$23,757,943. Of the \$25,578,907, \$6,542,378, or approximately 25.6 percent, of the fund balance constitutes unassigned fund balance.

The General Fund reported an increase in fund balance for the year of \$389,503, or 2.3 percent. Revenues came in \$297,687 over budget and the District was budgeting for an increase in fund balance of \$30,709. The operating increase to the fund was \$1,667,495. This increase was mainly due to an increase in investment income and a decrease in planned contractual expenses.

The General Fund is the chief operating fund of the District. At December 31, 2024, unassigned fund balance in the General Fund was \$6,542,378, which represents 37.9 percent of the total fund balance of the General Fund. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance in the General Fund represents 63.2 percent of total General Fund expenditures.

At December 31, 2024, the Recreation Fund had an increase in fund balance of \$1,696,736. The District budgeted for an increase in the Recreation fund balance of \$1,829,453. The operating increase to the fund was \$2,816,736. The increase in the fund balance is the result of an increase in registration and lesson fees due to three additional weeks of summer camp as well as a reduction in wages and benefits due to reorganization changes and retirements.

The Acquisition and Improvements Fund recognized a slight decrease in fund balance after General Fund, Recreation Fund, and Special Recreation Fund transfers of \$4,525,169 were approved.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the current fiscal year, the General Fund had no budget amendments. Actual revenues for the year totaled \$12,014,491 compared to budgeted revenues of \$11,716,804. Investment income was \$411,917 over budget and was partially offset by personal property replacement tax coming in \$147,694 under budget. General Fund actual expenditures for the year were \$1,338,099 under budget (\$10,346,996 actual compared to \$11,686,095 budgeted). The variance is mostly seen in the contractual services area due to the new risk management agency's membership dues coming in under budget.

Management's Discussion and Analysis (Continued) December 31, 2024

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's net investment in capital assets for its governmental activities as of December 31, 2024 was \$71,661,298 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, land improvements, buildings and improvements, furniture and fixtures, and equipment and vehicles).

	Capital Assets -						
	 Net of Depreciation						
	 2024	2023					
Land	\$ 34,113,253	33,737,978					
Construction in Progress	1,117,690	823,270					
Land Improvements	13,782,025	12,423,615					
Buildings and Improvements	19,915,447	20,245,172					
Furniture and Fixtures	39,265	32,612					
Equipment and Vehicles	 2,693,618	2,693,618					
Total	 71,661,298	69,452,862					

This year's major additions included:

Land	\$ 375,275
Construction in Progress	999,321
Land Improvements	2,630,508
Buildings and Improvements	729,551
Equipment and Vehicles	821,662
	5,570,326

Additional information on the District's capital assets can be found in Note 5 of this report.

Management's Discussion and Analysis (Continued) December 31, 2024

Debt Administration

At year-end, the District had total outstanding debt of \$12,725,000 as compared to \$14,310,000 the previous year, a decrease of \$1,585,000. The following is a comparative statement of outstanding debt:

Long-To	erm
Debt Outst	anding
2024	2023

General Obligation Bonds \$ 12,725,000 14,310,000

The District maintains an Aa1 rating from Moody's for general obligation debt. State statutes limit the amount of general obligation debt a non-home rule governmental entity may issue to 2.875 percent of its total assessed valuation. The current debt limit for the District is \$94,954,303

Additional information on the District's long-term debt can be found in Note 8 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District's elected and appointed officials considered many factors when setting the fiscal-year 2025 budget, tax rates, and fees that will be charged for its governmental activities. Those factors included the economy, unemployment rates, CPI, etc. Although the District considers the economy in setting rates and fees during the budget process, the District does not feel that these economic factors will have a significant bearing on District operations in the coming year.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the office of the Director of Finance, Palatine Park District, 250 East Wood Street, Palatine, IL 60067.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Palatine Park District, Palatine, Illinois (the District), incorporated in 1945, is duly organized and existing under the provisions of the laws of the State of Illinois. The District operates under a commissioner-director form of government and is governed by an elected five-member board. The District provides a variety of recreational facilities, programs and services.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

a. Reporting Entity

In determining the financial reporting entity, the District complies with the provisions of GASB Statement No. 61, *The Financial Reporting Omnibus - an Amendment of GASB Statements No. 14 and No. 34* and includes all component units that have a significant operational or financial relationship with the District. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The District's funds are classified into the governmental category:

Governmental funds are used to account for all of the District's general activities, including the collection and disbursement of restricted or committed monies (special revenue funds), the acquisition or construction of major capital assets other than those financed by proprietary funds (capital projects funds) and the accumulation of resources that are restricted, committed or assigned for the payment of principal and interest on long-term obligations (debt service funds). The General Fund is used to account for all activities of the District not accounted for in another fund.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District. With the exception of interfund services provided and used, the effect of material interfund activity has been eliminated from these statements. Governmental activities, are normally supported by taxes and intergovernmental revenues.

In the government-wide statement of net position, the governmental activities are presented on a consolidated basis and reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The District's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The District first utilizes restricted resources to finance qualifying activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The General Fund (the District's Corporate Fund) accounts for the resources traditionally associated with local government, except those accounted for in another fund. Included in these services are general administration and park maintenance. Financing is primarily provided from an annual property tax levy and Illinois personal property replacement taxes.

The Recreation Fund accounts for the operations of the District's recreational programs and concessions. Financing is provided from an annual property tax levy restricted by the state for recreation purposes and fees and charges for programs and activities assigned for recreation purposes.

The Acquisitions and Improvement Fund accounts for the acquisition and construction of major capital outlays. Financing is provided by grants, donations and transfers in.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District recognizes property taxes when they become both measurable and available in the year intended to finance. Expenditures are recorded when the related liability is incurred. Principal and interest on general long-term debt are recorded as expenditures become due.

Those revenues susceptible to accrual (within 60 days) are property taxes, interest revenue and charges for services.

The District reports unearned revenue and unavailable/deferred revenue on its financial statements. Unavailable revenues arise when potential revenue does not meet both the measurable and available or earned criteria for recognition in the current period. Deferred revenues arise when property tax levies are intended to finance the next fiscal year. Unearned revenue arises when a revenue is measurable but not earned under the accrual basis of accounting. Unearned revenues also arise when resources are received by the District before it has a legal claim to them or prior to the provision of services, as when grant monies are received prior to the issuance of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability and deferred inflows of resource for unearned and unavailable/deferred revenue are removed from the financial statements and revenue is recognized.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

f. Inventories

Inventories are valued at cost, which approximates market, using the weighted average method. The costs of governmental fund inventories are recorded as expenditures when consumed rather than when purchased.

g. Prepaid Items/Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items. The costs of governmental fund prepaid items are recorded as expenditures when consumed rather than when purchased.

h. Capital Assets

Capital assets, which include property, plant, equipment, infrastructure assets (e.g., bike trails, paths, roads, bridges and similar items) and intangibles (software and easements) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$250,000 for infrastructure, \$50,000 for buildings and building improvements and \$10,000 for vehicles, machinery and equipment and furniture and fixtures and an estimated useful life in excess of three years. Such assets are reported at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Land improvements	10-30
Buildings and improvements	10-50
Furniture and fixtures	5-20
Equipment and vehicles	5-20

i. Compensated Absences

The District implemented GASB Statement 101, Compensated Absences, in 2024. The District did not restate opening net position to reflect this balance as of January 1, 2024. Vested or accumulated vacation and sick leave that is due to employees who have retired or terminated by the end of the year is reported as an expenditure and a fund liability of the governmental fund that will pay it. Vested or accumulated vacation and sick leave of governmental activities is recorded as an expenditure and liability of those funds as the benefits accrue to employees. The entire balance of vacation leave is recognized as a liability at year end. A liability is recognized for the portion of accumulating sick leave benefits that is estimated to be more likely than not to be used for time off or otherwise paid in cash or settled through noncash means.

j. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, deferred inflows and outflows of resources and disclosure of contingent assets, liabilities and deferred inflows and outflows of resources at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

k. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Unamortized losses or gains on refundings, bond premiums and discounts, are deferred and amortized over the life of the bonds. Bonds payable are reported as net of the applicable bond premium or discount.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k. Long-Term Obligations (Continued)

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

1. Fund Balance/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities or from enabling legislation adopted by the District. Committed fund balance is constrained by formal actions of the District's Board of Commissioners, which is considered the District's highest level of decision-making authority. Formal action to establish, modify or rescind commitments involves ordinances approved by the Board of Commissioners. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the District's Executive Director through the District's fund balance policy. Any residual fund balance in the General Fund, including fund balance targets and any deficit fund balance of any other governmental fund is reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the District considers committed funds to be expended first followed by assigned funds and then unassigned funds.

The various special revenue funds supported by property taxes are restricted due to the restricted revenue streams of the fund balance. Other funds are restricted due to the nature of the contributions to the fund.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the book value of capital assets less any long-term debt issued to acquire or construct the capital assets.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m. Interfund Transactions

Interfund transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except reimbursements, are reported as transfers.

n. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future period(s) and so it will not be recognized as an inflow of resources (revenue) until that time. These amounts are deferred and recognized as an inflow of resources in the period these amounts become available.

2. DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the balance sheet as cash and investments. In addition, investments are separately held by several of the District's funds.

Permitted Deposits and Investments - Statutes authorize the District to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Public Reserve Investment Management Trust.

The Illinois Public Reserves Investment Management Trust (IPRIME) is an investment opportunity and cash management service for Illinois Municipal Treasurers acting on behalf of counties, townships, cities, towns, villages, special road districts, public water supply districts, fire protection districts, drainage districts, levee districts, sewer districts, housing authorities, and all other political corporations or subdivisions of the State of Illinois. Participation in IPRIME is voluntary. IPRIME is not registered with the SEC as an Investment Company. Investments in IPRIME are valued at the share price, the price for which the investment could be sold.

2. DEPOSITS AND INVESTMENTS (Continued)

The Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the state to pool their funds for investment purposes. Investments in The Illinois Funds are valued at The Illinois Funds' share price, the price at which the investment could be sold.

In addition, the Board of Commissioners of the District has adopted an investment policy which provides further restrictions on the investment of district funds. It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy, in order of priority are: legality, safety (preservation of capital and protection of investment principal), liquidity and yield.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral to be held in the name of the District by the District's agent with a market value of at least 102% for all bank balances in excess of federal depository insurance. At December 31, 2024, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

Investments

The following table presents the investments and maturities of the District's debt securities as of December 31, 2024:

		Investment Maturities (in Years)							
		Less					Greater		
Investment Type	Fair Value	than 1		1-5	6-10		than 10		
U.S. Treasury securities Negotiable certificates	\$ 10,230,973	\$ 10,230,973	\$	-	\$	- \$	-		
of deposit	3,970,330	3,475,330		495,000					
TOTAL	\$ 14,201,303	\$ 13,706,303	\$	495,000	\$	- \$			

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

Fair Value Measurement

The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The District has the following recurring fair value measurements as of December 31, 2024: the U.S. Treasury securities and the negotiable certificate of deposits are valued using quoted matrix pricing models (Level 2 inputs).

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District limits its exposure to interest rate risk by structuring its portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity and by investing operating funds primarily in shorter-term securities.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Besides investing in security instruments authorized under state statute, the District's investment policy further states that investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. At year end, the District's investment in IPRIME was rated AAAm by Standard & Poor's. The certificates of deposits were not rated.

Custodial Credit Risk for Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. The District's investment policy requires pledging of collateral to be held in the name of the District by the District's agent with a market value of at least 102% for all bank balances in excess of federal depository insurance.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

Concentration of Credit Risk

This is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy limits the District's investments to the safest types of securities: pre-qualified financial institutions, broker/dealers, intermediaries and advisors with which the District does business and diversifies the investment portfolio so that potential losses on individual securities will be minimized.

3. RECEIVABLES

a. Taxes

Property taxes for 2023 attach as an enforceable lien on January 1, 2023, on property values assessed as of the same date. Taxes are levied by December 2023 (by passage of a Tax Levy Ordinance). Tax bills are prepared by Cook County and issued on or about February 1, 2024 and July 1, 2024 and are payable in two installments on or about March 1, 2024 and August 1, 2024. The County collects such taxes and remits them periodically.

The 2024 tax levy, which is intended to finance the 2025 fiscal year, has been recorded as a receivable and unavailable/deferred revenue as of December 31, 2024.

b. Notes Receivable

The District has executed notes receivable to various organizations utilizing and seeking to improve District facilities. As of December 31, 2024, these notes receivable had an outstanding balance of \$87,404. Payments are due in annual installments ranging from \$6,000 to \$49,345 with interest ranging from zero to 4.25%, maturing between 2025 and 2031.

4. JOINT GOVERNED ORGANIZATION - NORTHWEST SPECIAL RECREATION ASSOCIATION

The District is a member of the Northwest Special Recreation Association (NWSRA), which was organized by 18 area park districts in order to provide special recreation programs to the physically and mentally handicapped within their districts and to share the expenses of such programs on a cooperative basis. Each member district's fiscal year 2024 contribution is based on its pro rata share of 75% of the assessed valuation and 25% of the gross populations. For the year ended December 31, 2024, the District contributed \$474,730 to NWSRA.

4. JOINT GOVERNED ORGANIZATION - NORTHWEST SPECIAL RECREATION ASSOCIATION (Continued)

NWSRA's Board of Directors consists of one member from each participating district. The Board of Directors is the governing body of NWSRA and is responsible for establishing all major policies and changes therein and for approving all budgets, capital outlay, programming and master plans. The District is not financially accountable for the activities of NWSRA and, accordingly, NWSRA has not been included in the accompanying financial statements.

Complete financial statements for NWSRA can be obtained from NWSRA administrative offices at 3000 Central Road, Rolling Meadows, Illinois 60008.

5. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2024 was as follows:

	Beginning					Ending

5. CAPITAL ASSETS (Continued)

Depreciation expense was charged to functions/programs of the primary government as follows:

GOVERNMENTAL ACTIVITIES

General government	\$ 1,006,680
Culture and recreation	1,650,309

TOTAL DEPRECIATION EXPENSE - GOVERNMENTAL ACTIVITIES

\$ 2,656,989

6. RISK MANAGEMENT

The District is exposed to various risks of loss to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. The District has purchased insurance from private insurance companies. Risks covered included certain types of liabilities and bonds. Premiums have been displayed as expenditures/expenses in appropriate funds. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

a. Metro Risk Management Agency

Since 1987, the District has been a member of the Metro Risk Management Agency (MRMA), a joint risk management pool of park districts through which property, general liability, automobile liability, crime, boiler and machinery, public officials and workers' compensation coverage is provided in excess of specified limits for the members, acting as a single insurable unit.

Metro Risk Management Agency has dissolved as of March 31, 2024 and the District is no longer a member. The District has since joined the Park District Risk Management Agency (PDRMA) for risk management coverages.

b. Park District Risk Management Agency

Since 2024, the District has been a member of PDRMA, a joint risk management pool of park and forest preserve districts and special recreation associations through which property, general liability, automobile liability, crime, boiler and machinery, public officials' and workers' compensation coverage is provided in excess of specified limits for the members, acting as a single insurable unit.

Each member assumes the first \$1,000 of property claims each occurrence and has self-insurance retentions at various amounts.

NOTES TO FINANCIAL STATEMENTS (Continued)

6. RISK MANAGEMENT (Continued)

b. Park District Risk Management Agency (Continued)

Management consists of a Board of Directors comprised of one appointed representative from each member. In addition, there are two officers, a Risk Manager and a Treasurer. The District does not exercise any control over the activities of PDRMA beyond its representation on the Board of Directors.

Initial contributions are determined in advance of each membership year based on the individual member's expenditures as defined in the by-laws of PDRMA, assessment factors based on past member experience and the funding needs for the membership year. The Board of Directors may require that supplemental contributions be made by members to ensure that adequate funds are available to meet the obligations applicable to the membership year.

Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member. Losses exceeding the per occurrence self-insured and reinsurance limit would be the responsibility of the District. The District is not aware of any additional amounts owed to PDRMA at December 31, 2024.

The District purchases health insurance from an insurance broker for the benefit of its employees.

c. Intergovernmental Personnel Benefit Cooperative

The District participates in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC is a public entity risk pool established by certain units of local government in Illinois to administer some or all of the personnel benefit programs (primarily medical, dental and life insurance coverage) offered by these members to their officers and employees and to the officers and employees of certain other governmental, quasi-governmental and nonprofit public service entities.

IPBC receives, processes and pays such claims as may come within the benefit program of each member. Management consists of a Board of Directors comprised of one appointed representative from each member. In addition, there are two officers: a Benefit Administrator and a Treasurer. The District does not exercise any control over the activities of IPBC beyond its representation on the Board of Directors.

7. SHORT-TERM DEBT

Changes in Short-Term Liabilities

During the year ended December 31, 2024, the following changes occurred in short-term liabilities:

	Fund Debt Retired By	Balance May 1	Additions	Reductions	Balance April 30	Current Portion
General Obligation Limited Tax Park Bond Series of 2024; \$1,818,000 dated April 2, 2024; maturing April 9, 2024; payable in one installment; interest rate of 5.68%	Bond and Interest	\$	- \$ 1,818,000	\$ 1,818,000	\$ -	\$
TOTAL		\$	- \$ 1,818,000	\$ 1,818,000	\$ -	\$ -

The General Obligation Limited Tax Park Bonds, Series 2024, were issued to provide the revenue source for the payment of certain outstanding obligations of the District.

8. LONG-TERM DEBT

a. General Obligation Bonds

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In addition, general obligation bonds have been issued to refund general obligation bonds. General obligation bonds are direct obligations and pledge the full faith and credit of the District. These bonds are paid with a special property tax levy.

General obligation bonds currently outstanding are as follows:

Issue	Fund Debt Retired By	Balances January 1	Additions	Reductions/ Refundings	Balances December 31	Current Portion
GOVERNMENTAL ACTIVITIES		•				
\$4,125,000 General Obligation Limited Tax Refunding Park Bonds, Series 2015D, due in installments of \$390,000 to \$845,000 plus interest at 2.50% to 4.00% through December 1, 2027.	Bond and Interest	\$ 1,955,000	\$ -	\$ 405,000	\$ 1,550,000	\$ 415,000
TOTAL GENERAL OBLIGATION BONDS		\$ 1,955,000	\$ -	\$ 405,000	\$ 1,550,000	\$ 415,000

NOTES TO FINANCIAL STATEMENTS (Continued)

8. LONG-TERM DEBT (Continued)

b. Alternate Revenue Source General Obligation Bonds

Similar to the general obligation bonds noted above, the District also issues alternate revenue source general obligation bonds. These bonds are paid by specific pledged future revenue streams. See footnote 8.f. for additional information on the pledged revenues.

Alternate revenue source general obligation bonds currently outstanding are as follows:

Issue	Fund Debt Retired By	Balances January 1	Additions	Reductions/ Refundings	Balances December 31	Current Portion
GOVERNMENTAL ACTIVITIES						
\$5,335,000 General Obligation Alternate Revenue Source Refunding Park Bonds, Series 2015C, due in installments of \$65,000 to \$1,145,000 plus						
interest at 2% to 4% through December 1, 2026.	Bond and Interest	\$ 3,060,000	\$ -	\$ 945,000	\$ 2,115,000	\$ 970,000
\$8,820,000 General Obligation Alternate Revenue Source Park Bond, Series 2017, due in installments of \$500,000 to \$1,070,000 plus interest at 3% to 4% through December 1, 2036.	Bond and Interest	8,820,000	-	-	8,820,000	-
\$1,370,000 General Obligation Alternate Revenue Source Refunding Park Bonds, Series 2019A, due in installments of \$215,000 to \$240,000 plus interest at 1.72% through December 15, 2025.	Bond and Interest	475,000	-	235,000	240,000	240,000
TOTAL GENERAL OBLIGATION BONDS - ALTERNATE REVENUE SOURCE		\$12,355,000	\$ -	\$ 1,180,000	\$ 11,175,000	\$ 1,210,000

8. LONG-TERM DEBT (Continued)

c. Debt Service Requirements to Maturity

Annual debt service requirements to maturity are as follows:

	Governmental Activities

TOTAL GOVERNMENTAL						
ACTIVITIES	\$ 19,785,230	\$	196,937	\$ 3,759,144	\$ 16,223,023	\$ 1,864,086

^{*}The General and Recreation Funds are used to liquidate these liabilities.

^{**}The amount displayed as additions or reductions represents the net change in the liability.

NOTES TO FINANCIAL STATEMENTS (Continued)

8. LONG-TERM DEBT (Continued)

e. Legal Debt Margin

Assessed valuation - 2023 (latest available amount)	\$ 3,302,758,365			
Legal debt limit - 2.875% of assessed valuation Amount of debt applicable to debt limit General obligation debt	\$	94,954,303		
Park Bonds Series 2015D		1,550,000		
LEGAL DEBT MARGIN	\$	93,404,303		
Nonreferendum legal debt limit - 0.575% of assessed valuation Amount of debt applicable to debt limit	\$	18,990,861		
Park Bonds Series 2015D		1,550,000		
NONREFERENDUM LEGAL DEBT MARGIN	\$	17,440,861		

Chapter 70, Section 1205/6-2 of the Illinois Compiled Statutes provides, "...for the payment of land condemned or purchased for parks or boulevards, for the building, maintaining, improving and protecting of the same and for the payment of the expenses incident thereto, or for the acquisition of real estate and lands to be used as a site for an armory, any park district is authorized to issue the bonds or notes of such park district and pledge its property and credit therefore to an amount including existing indebtedness of such district so that the aggregate indebtedness of such district does not exceed 2.875% of the value of the taxable property therein, to be ascertained by the last assessment for state and county taxes previous to the issue from time-to-time of such bonds or notes or, until January 1, 1983, if greater, the sum that is produced by multiplying the District's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, if a petition, signed by voters in number equal to not less than 2% of the voters of the District, who voted at the last general election in the District, asking that the authorized aggregate indebtedness of the District be increased to not more than 5.75% of the value of the taxable property therein, is presented to the board and such increase is approved by the voters of the District at a referendum held on the question."

In 1977, no such a referendum was approved (from 2.50% to 5.00%). When the personal property tax was eliminated, the limitation was raised to 5.75%.

8. LONG-TERM DEBT (Continued)

f. Pledged Revenues

The District has issued Alternate Revenue Source Bonds for which they have pledged future revenue streams.

In 2015, the District issued the Series 2015C general obligation alternate revenue source bonds to refund the remaining principal for the Series 2008A alternate revenue bonds issued in prior years and are payable from revenue generated in the District's General Fund and proceeds of the District's non-referendum general obligation bonds to be issued. The remaining total pledge is \$2,212,800 and the bonds mature on December 1, 2026. During the current fiscal year, the pledge of revenue in the District's General Fund for the 2015C bonds of \$1,046,250 was approximately 8.71% of total revenues pledged.

In 2017, the District issued the Series 2017 general obligation alternate revenue source bonds for the District's contribution to the construction of the Aquatic Area at Harper College and are payable from revenue generated in the District's General Fund and proceeds of the District's non-referendum general obligation bonds to be issued. The remaining total pledge is \$11,451,000 and the bonds mature on December 1, 2036. During the current fiscal year, the pledge of revenue in the District's General Fund for the 2017 bonds of \$318,500 was approximately 2.65% of total revenues pledged.

In 2019, the District issued the Series 2019A general obligation alternate revenue source bonds to refund the remaining principal for the Series 2011A alternate revenue bonds issued in prior years and are payable from revenue generated in the District's General Fund and proceeds of the District's non-referendum general obligation bonds to be issued. The remaining total pledge is \$224,128 and the bonds mature on December 15, 2025. During the current fiscal year, the pledge of revenue in the District's General Fund for the 2019A bonds of \$244,128 was approximately 2.02% of total revenues pledged.

9. CONTINGENT LIABILITIES

a. Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

9. CONTINGENT LIABILITIES (Continued)

b. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

10. INDIVIDUAL FUND DISCLOSURES

Interfund Transfers

Individual fund interfund transfers are as follows:

	Transfers In		Transfers Out	
General Fund Recreation Fund Acquisition and Improvements Fund Nonmajor Governmental Funds	\$	1,820,008 4,525,169 332,000	\$ 3,098,000 1,120,000 - 2,459,177	
TOTAL	\$	6,677,177	\$ 6,677,177	

The purpose of the significant transfers resulted from:

- \$1,820,008 transferred to the General Fund from the Nonmajor Governmental Funds (Bond and Interest Fund) to transfer proceeds from the Series 2024 bond issuance with the intent to repay certain outstanding obligations and for payment of land condemned or purchased for parks, for the building, maintaining and improving the existing land and facilities of the District.
- \$4,525,169 transferred to the Acquisition and Improvements Fund from the General Fund, Recreation Fund, and Nonmajor Governmental Funds (Special Recreation Fund) for various capital assets purchases and improvements. This transfer will not be repaid.
- \$332,000 transferred to the Nonmajor Governmental Funds (Bond and Interest Fund) from the General Fund for long term debt principal and interest payments. This transfer will not be repaid.

NOTES TO FINANCIAL STATEMENTS (Continued)

11. RETIREMENT FUND COMMITMENTS

Illinois Municipal Retirement Fund

The District's defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole but not by individual employer. That report may be obtained by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at www.imrf.org.

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2023 (most recent information available), IMRF membership consisted of:

Inactive employees or their beneficiaries	
currently receiving benefits	127
Inactive employees entitled to but not yet	
receiving benefits	140
Active employees	117
TOTAL	384

NOTES TO FINANCIAL STATEMENTS (Continued)

11. RETIREMENT FUND COMMITMENTS (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011 are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years and 2% for each year thereafter. Employees hired on or after January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

Participating members are required to contribute 4.50% of their annual covered salary to IMRF. The District is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution rate for the calendar year ended December 31, 2024 was 7.00% of covered payroll.

Actuarial Assumptions

The District's net pension liability was measured as of December 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

<u>Illinois Municipal Retirement Fund</u> (Continued)

Actuarial Assumptions (Continued)

Actuarial valuation date December 31, 2023

Actuarial cost method Entry-age normal

Assumptions

Price inflation 2.25%

Salary increases 2.85% to 13.75%

Interest rate 7.25%

Asset valuation method Fair value

For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108.0%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the District's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability (asset) to changes in the discount rate. The table below presents the net pension liability (asset) of the District calculated using the discount rate of 7.25% as well as what the District's net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

		Current						
	19	% Decrease (6.25%)			% Increase (8.25%)			
		,		,				
Net pension liability (asset)	\$	6,551,123	\$	1,832,532	\$	(2,023,374)		

12. OTHER POSTEMPLOYMENT BENEFITS

Plan Description

In addition to providing the pension benefits described, the District provides other postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual, except for the implicit subsidy which is governed by the State Legislature and ILCS. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report.

Benefits Provided

The District provides postemployment health care and life insurance benefits to its retirees. To be eligible for implicit benefits, an employee must qualify for retirement under the District's retirement plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual. The retirees pay 100% of the blended premium. Certain benefits are controlled by state laws and can only be changed by the Illinois Legislature. The plan does not issue a separate report. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

NOTES TO FINANCIAL STATEMENTS (Continued)

12. OTHER POSTEMPLOYMENT BENEFITS (Continued)

Membership a.

At December 31, 2024, membership consisted of:

Retirees and beneficiaries currently receiving benefits	6
Terminated employees entitled to benefits but not yet	
receiving them	-
Active employees	107
TOTAL	113
Participating employers	1

Total OPEB Liability b.

The District's total OPEB liability of \$526,972 was measured as of December 31, 2024 and was determined by an actuarial valuation as of the same date.

Actuarial Assumptions and Other Inputs c.

The total OPEB liability at December 31, 2024, as determined by an actuarial valuation as of the same date, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Actuarial cost method	Entry Age Normal
Actuarial value of assets	Not Applicable
Inflation	3.00%
Salary increases	4.00%
Discount rate	4.28%
Healthcare cost trend rates	6.00% Initial 4.50% Ultimate

12. OTHER POSTEMPLOYMENT BENEFITS (Continued)

c. Actuarial Assumptions and Other Inputs (Continued)

The discount rate was based on the index rate for tax exempt general obligation municipal bonds rated AA or better at December 31, 2024. The discount rate at December 31, 2024 was 4.28%.

Mortality rates for active employees are based on the PubG.H-2010(B) Mortality Table - General (below-median income) with future mortality improvement using Scale MP-2021. Mortality rates for retirees are based on the PubG.H-2010(B) Mortality Table - General (below-median income); the Male table is adjusted by 108.0% and the Female table is adjusted by 106.4%. Future mortality improvements are made using scale MP-2021.

The actuarial assumptions used in the valuation are based on 30% participation assumed, with 50% electing spouse coverage.

d. Changes in the Total OPEB Liability

	Total OPEB Liability

Thereafter	(30,096)
TOTAL	\$ (161,516)_

13. LESSOR DISCLOSURES

In accordance with GASB Statement No. 87, *Leases*, the District's lessor activity is as follows:

The District entered into a lease arrangement on January 26, 2023, to lease cell tower property. Payments ranging from \$3,361 to \$8,642 are due to the District in monthly installments through April 2044. The lease agreement is noncancelable and maintains an interest rate of 3.40%. During the fiscal year ending December 31, 2024, the District collected \$75,814 and recognized a \$73,385 reduction in the related deferred inflow of resource. The remaining lease receivable and offsetting deferred inflow of resource for this agreement is \$1,524,447 and \$1,418,973, respectively, as of December 31, 2024.

14. PALATINE HILLS GOLF COURSE OPERATIONS

As of January 9, 2023, the District entered into an agreement with a private company (PC) to outsource the operations of the District's Palatine Hills Golf Course. PC has access to manage, operate, maintain, and promote the golf course. The District reserves the right to terminate the agreement under various circumstances as documented in the terms of the agreement. PC agrees to pay the District a fee of \$34,128 in the first two years of operations and increasing by \$1,500 each year thereafter. The District did not receive any variable payments during the year ended December 31, 2024.

NOTES TO FINANCIAL STATEMENTS (Continued)

14. PALATINE HILLS GOLF COURSE OPERATIONS (Continued)

This agreement qualifies as a Public-Private Partnership under GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, and is reported on the financial statements accordingly, discounted at 2.354%. As of December 31, 2024, the District reported a receivable and deferred inflow of resources in the amount of \$33,237 and \$31,904, respectively, related to the agreement.

15. SUBSEQUENT EVENT

Subsequent to December 31, 2024, the District Board of Commissioners approved the issuance of approximately \$1,839,890 General Obligation Bonds, Series 2025, for the payment of land for parks, for the building, maintaining, improving and protecting of the same and the existing land and facilities of the District and for the payment of the expenses incident thereto, providing for the levy of a direct annual tax to pay the principal and interest on the bonds, and authorizing the sale of the bonds to the purchaser thereof

Notes to Required Supplementary Information

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

2018-2023: Changes in assumptions related to the discount rate.

2024: Changes in assumptions related to the discount rate, starting per capita costs and healthcare cost trend rates.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2024

LEGAL COMPLIANCE AND ACCOUNTABILITY

Budgets

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP). Annual appropriated budgets are adopted for all the governmental funds.

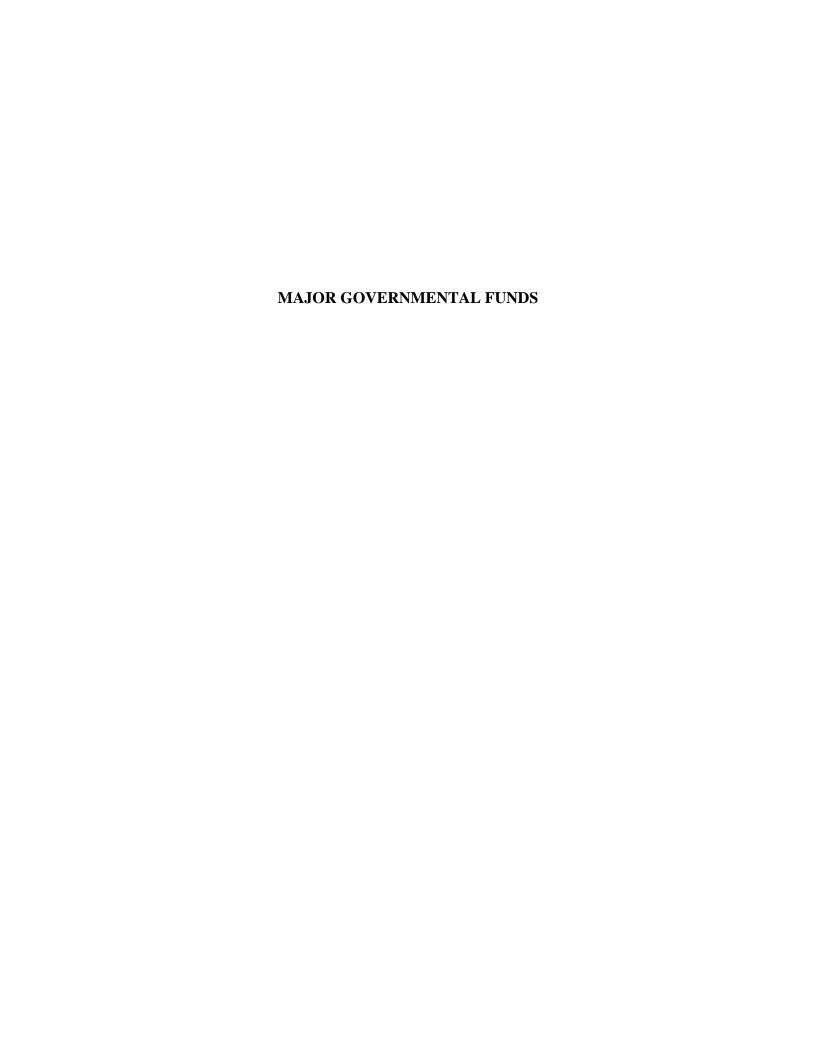

The budget is prepared by fund, function and activity and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget.

The budget may be amended by the governing body. The original and final operating budget is presented in these financial statements.

All appropriations lapse at year end. Expenditures may not exceed appropriations at the fund level.

NONMAJOR GOVERNMENTAL FUND

SPECIAL REVENUE FUND

Special revenue funds are established to account for the proceeds of specific revenue sources (other than special assessments or for major capital projects) that are legally restricted or committed to expenditure for specified purposes.

Special Recreation Fund - This fund primarily pays for the District's membership in the NWSRA, other programs that target specific populations and facilities that also target specific populations. Financing is provided by a specific restricted annual property tax levy.

DEBT SERVICE FUND

Debt service funds are established to account for and report financial resources that are restricted, committed or assigned for the payment of general long-term debt principal, interest and related costs.

Bond and Interest Fund - This fund is used to account for restricted resources required for the payment of principal and interest.

STATISTICAL SECTION

This part of the Palatine Park District, Palatine, Illinois' annual financial comprehensive report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information displays about the District's overall financial health.

<u>Contents</u>	Page(s)
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have been changed over time.	64-73
Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	74-77
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	78-81
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	82-83
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	84-86

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Note: Details of the District's outstanding debt can be found in the notes to financial statements.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT

December 31, 2024

Governmental Unit	Gross Debt	Percentage of Debt Applicable to the District*	District Share of Debt
Palatine Park District	\$ 13,234,555	100.00%	\$ 13,234,555
Cook County Cook County Forest Preserve Village of Schaumburg Metropolitan Water Reclamation District City of Rolling Meadows Village of Palatine SSA #5 The Village of Palatine School District #220 School District #15 Arlington Heights Hoffman Estates Inverness Community College District #512	1,935,201,750 87,340,000 282,510,000 2,693,351,774 14,335,000 4,385,000 25,905,000 124,480,000 142,720,000 59,705,000 85,612,090	1.40% 1.40% 3.54% 1.39% 14.99% 100.00% 94.62% 0.26% 62.46% 0.80% 3.39% 18.10% 11.51%	27,092,825 1,222,760 10,000,854 37,437,590 2,148,817 4,385,000 24,511,311 323,648 89,142,912 477,640 2,902,250
	 5,663,005,614		 223,524,253
	\$ 5,676,240,169		\$ 236,758,808

^{*}The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the District's taxable assessed value that is within the government's boundaries and dividing it by the District's total taxable assessed value.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt, of each overlapping government.
